Question No : 3 of 26

Marks: 1 (Budgeted Time 1 Min)

The incremental model of software development is

Answer (Please select your correct option)

- ☐ A reasonable approach when requirements are well defined.
- ☐ A good approach when a working core product is required quickly.
- ☐ The best approach to use for projects with large development teams and risky projects
- ☐ A revolutionary model that is not used for commercial products

Question No : 5 of 26

Marks: 1 (Budgeted Time 1 Min)

Which of the following formula is used to calculate the exposure for each risk ?

Answer (Please select your correct option)

☐

RE = Probability of the risk + Cost

☐

RE = Probability of the risk x Cost

PAGE : 88

Correct answer solve by hadi
