Question No : 15 of 17

Marks: 5 (Budgeted Time 10 Min)

Read the paragraph and identify the implied main idea.

Orthodontists usually straighten the teeth of children. Lately, they have found a growing clientele with adults. The major reason for this is that different kinds of braces are now available. Many adults do not like the "tin grin" that goes along with metal braces. They now have two choices not available before. One is clear braces. Made of plastic, they are much less obvious than metal braces. The second choice is lingual braces. These are attached to the back of the teeth, so they are out of sight. Thus, business people need no longer feel self-conscious about wearing braces.
